

# FT 723 Airport Acquisition Beacon

Designed to assist airport acquisition by pilots flying in the vicinity, Flash Technology's FT 723 airport beacon is an omnidirectional xenon beacon that emits an intense, flashing white light. Utilizing no moving parts, the FT 723 minimizes installation, operation and maintenance costs.

## Maintenance

- An extensive instruction manual and drawings are provided with each system.
- Trained technical support staff and information on support programs are readily available through our National Operations Center (NOC) services department.
- Onsite training through Flash University is also available.
